HEAR BEAUTY.
SEE BEAUTY.
HIDE EVERYTHING ELSE.
Hear Beauty. See Beauty.

It is no surprise that both design and hi-fi enthusiasts love clic.

The idea of a luxurious and functional furniture that hides what it needs to and still presents sound in stylish way, arose when Mike Fabricius was unable to find a furniture that was both functional and had a great design at the same time.

With more than 3000 vinyl records on the shelf and a large hi-fi system combined with a high demand for both sound and the visual result, he had no choice but designing a furniture himself.

The result was clic.

Clic is a well thought out combination of hi-fi and exclusive Danish furniture design. The furniture allows you to hide cables, speakers, subwoofers, gaming consoles, projectors and everything else that disturbs the eye – and makes it a part of a stylish setup – without compromising the great sound and design.

NEWS 202 CENTIMETERS

Clic introduces:

- 27 new models
- New and smaller depth 26,5 cm.
- New furniture width 202 cm.
- 2 new veneer quality: Oak and walnut
- 5 new fabric door colours in a brand new quality

Clic introduces a long line of new models in a brand new width on 202 centimeters. The new models summarizes all the knowledge and knowhow clic has gathered during the last 14 years. The models in the new width are available in 2 heights, 4 depths and a number of combinations.

As an example model 240 is available in 5 different variants:

- Model 240
  4 rooms, all the same size
- Model 240 Center
  3 rooms, the middle one is wider and can as an example store a large center speaker
- Model 240S Left
  2 rooms, a small one and a big one. On model Left the big room is on the left side and can be used for a Soundbar or other longer items
- Model 240S Right
  2 rooms, a small one and a big one. On model Right the big room is on the right side and can be used for a Soundbar or other longer items

With furniture in the new width, we made it even easier to create an elegant set up without losing focus on the sound quality and the design.

Besides the 27 new models we also introduce a new and smaller depth on only 26,5 cm. There are 4 new variants in this depth and all of them are 202 cm. wide.

When using the new model 14S Left in 26,5 cm. you get an elegant furniture setup with room for a small music system without taking up too much space into the room. With a 65-inch screen above the furniture, the furniture will still be wider than the screen, which visually creates a balance.

You can see a complete overview of all clic models in all depths on pages 18 to 25.

Alongside the new models clic are also launching 2 new veneer quality: Oak and walnut. All clic models are available in the new veneers.

We also introduce 5 new fabric door colours in a brand new quality. The 5 new colours complements our 4 existing paint colours and the new oak and walnut perfectly.
The clic furniture are available with fabric doors in 16 different colours. The fabric doors allow you to hide speakers and music systems and send signals in and sound from the speakers out - without opening the door.

NEWS: We introduce 5 new fabric colours with a rougher look that gives the finished piece a bit more edge.

FINISH & QUALITY

All clic furniture, wooden doors and drawers are available in white, lightgrey, grey and black paint and the 2 new veneers: Oak and walnut.

Regardless of colour or finish all clic furniture are produced after the same principle with high focus on quality.
The drawers in the clic furniture are divided with 2 metal sticks. The metal sticks can be placed in different ways to store all kinds of software or other items.

With a clic charger for iPhone you can store and charge your iPhone directly in the top of the furniture.

With a vinyl hole in the top of your furniture, you get a cool and elegant storage solution for your favorite vinyl records.

With wood doors, the clic furniture allows you to hide the items you don’t wish to display.

Clic Desktop has all the same functions integrated as the rest of the clic models. Model Desktop has a table flap that opens down when opened. The top of the flap is aligned with the furniture when opened.

With clic’s cable covers, you can choose between brass or aluminum in black or silver.

You can store your vinyl records or binders in several of clic’s furniture models, and still use the hidden space in the back of the furniture for cables etc.

If you want to place your clic furniture on the wall, you simply use clic’s special designed wall brackets. You can mount your furniture completely up against the wall.

The clic wood doors allow you to hide the items you don’t wish to display.

The clic furniture has a 5 cm. advanced magnet mounted back plate. This allows you to hide cables behind it.

You can store your vinyl records or binders in several of clic’s furniture models, and still use the hidden space in the back of the furniture for cables etc.

With clic’s ventilation you can cool down the items stored behind a wood or fabric door.

With clic’s fireplace you can integrate the warm and cozy feeling in the top of your clic furniture.

Vinyl and binder

Wall brackets

Model Desktop
All design, development and production of the clic furniture are based in Denmark and all our furniture are made by hand.

Even the last coat of paint are done by hand to ensure a flawless finish and high quality.

All our materials are sourced in Denmark and we handpick all our subcontractors.

Our demand on materials and quality are constantly in focus. Our functions such as the removable back plates, our wall brackets and cables holes in the top and bottom are thought out down to the smallest detail and is a significant part of clic’s dna.

Our furniture are constructed to provide optimal strength and hold a high amount of weight regardless if you place them on the floor or stands or mount them on the wall.

All our furniture undergo a thorough quality check before they leave our production.
MOUNTING
The clic furniture can be stacked on top of each other by using our magnet feet or placed on the wall with clic wall brackets. Most clic models can be mounted on alu stands 1, 2, 3 or wheels. On clic.dk you can see how each model can be mounted.

IPAD POND
With a clic iPad pond (Registered design) you can integrate your iPad at the top plate of the furniture.
When your iPad is placed in the furniture, the top of the iPad will be aligned with the top of the furniture.
With the help of a rubber button at the bottom of the pond it’s easy to lift up the iPad when you want to bring it with you.

cable holes
All clic models have one cable hole center in the top plate as standard.
When ordering a clic furniture it is important to consider how many cable holes you need. For instance: Do you need cables from the furniture up to your flat-screen, a turntable or a lamp? Do you need extra cable holes for your charger or ventilation solution?
You can also order the furniture with no holes in the top plate.

CABLE HOLES

BACK PLATES
The clic furniture are fitted with removable back plates. The furniture stand just as stable with or without the back plates.
The back plates are fitted with magnets and can be placed 5 cm. from the back of the furniture to provide space behind them for cables etc.

VINYL HOLE
Store your favorite vinyl records in our special designed vinyl hole (Registered design) and flip through your favorites. Larger vinyl collections can be stored ordinarily in a clic furniture with or without a door.

FIREPLACE
With a clic bioethanol fireplace you can integrate the warm and cozy feeling in the top of your clic furniture.

MODEL 230 WITH 3 CABLE HOLES
Back plates
The new furniture are available in 3 depths, 5 widths and 4 heights. They can be combined in countless ways and offers plenty of opportunities to create a personal expression in the room.

The range of models and functions will solve your decor needs whether your wish is a stylish way to store your vinyl collection, music system, subwoofer or maybe your book collection.

You can play with the different colours or choose a classic solution in the new walnut or oak veneer. You can stack up the awarded books and hide everything from your Bob Dylan collection to your Glenlivet’s behind doors or drawers or you can choose a more unique expression with open rooms and let the furniture display your items.

It’s all a question of style, taste and courage.

ENDLESS POSSIBILITIES
When you have decided on the depth, you need to choose your model. On the following pages you can see what models are available in the different depths.

1. DEPTH
   clic’s models are available in 4 depths. The first thing you have to do is find out what your need for depth is.

2. MODEL
   When you have decided on the depth, you need to choose your model. On the following pages you can see what models are available in the different depths.

3. COLOUR
   Then you have to choose colour or finish on your furniture. All models are available in white, light grey, grey and black paint as well as oak and walnut veneer.

4. NUMBER OF HOLES IN TOP PLATE
   It’s important that you decide how many top holes you need in your furniture. A top hole will always be placed center above a room, but it’s completely optional if you want 1, 2 or no top holes. If you want no top hole, just make sure to make a note on that in your order.

5. FUNCTIONS IN THE TOP
   If you want to integrate a vinyl hole, iPad pond or a fireplace in the top of your furniture, don’t forget to add this to your order.

6. BACK PLATES
   clic’s removable back plates comes in white and black, with and without cable holes for cabling. The backplates are included in the furniture price.

7. DOORS AND DRAWERS
   You can choose between fabric and wooden doors. The fabric doors are available in 2 quality’s and a total of 16 different colours. Wooden doors are available in the same paint and veneer colours as the furniture. On our website under each model you can see if the model you want can be fitted with drawers. When you have decided on doors and drawers make sure to add these to your order. You can choose if you want the doors hinged on the left or right side.

8. MOUNTING AND ACCESSORIES
   Your final decision is how you want your furniture mounted and what accessories you need – wall brackets, alu stands, cables covers etc.
All clic models have one cable hole center in the top plate. If you want your clic furniture without holes or with extra holes remember to add this information on your order.

When removing the back plate the internal depth is 253mm. Find further measurements on clic.dk
